

Statement of Sound Engineering Practice

Pressure Equipment Directive 2014/68/EU

Classification of M-Dot Coriolis Mass Flowmeters
Models M012, M025, m050 m050ST, m100 and m100ST

With regard to the Pressure Equipment Directive 2014/68/EU, and in accordance with Article 4 (3), products that fall at or below the limits specified in Article 4 (1) a, b & c and Article 4 (2) “..shall be designed and manufactured in accordance with the sound engineering practice..”. This classification does not permit the issuance of a **Declaration of Conformance**.

The Red Seal Measurement **Coriolis mass flowmeters** listed above are designed and manufactured in accordance with “**Sound Engineering Practice**.”

Conformity Assessment Article 14 (2) of the Pressure Directive does not provide a conformity category or module for “**Sound Engineering Practice**”. However, Red Seal Measurement has in place a quality system that meets the requirements of Module H as evidenced by a **Declaration of Conformity** issued by a Notified Body under the Pressure Directive.
